

Jusiem Lee P. Pontejon

Panalipan, Catmon, Cebu | 09686122663 | jusiemleepontejon@gmail.com

EDUCATION

Cebu Institute of Technology – University	Cebu City, Philippines
<i>Bachelor of Science in Computer Engineering</i>	<i>Graduation Date: Jan 2026</i>

WORK EXPERIENCE

Knowles Training Institute	Singapore (Remote)
<i>IT Monitoring</i>	<i>Jun 2024 - Aug 2024</i>
- Performed quality checks on AI-assisted content to ensure accuracy, completeness, and adherence to prompts, while also supporting onboarding and orientation by preparing materials and guiding new interns on task procedures. - Collaborated with the team to ensure organized and consistent submission standards while demonstrating strong attention to detail, time management, and effective communication in a fast-paced training environment. - Developed a functional website using WordPress, including a landing page, navigation bar, and basic booking system, as part of offboarding requirements.	

PROJECT EXPERIENCE

Knowles Training Institute	Singapore (Remote)
<i>Lee's Café Hub</i>	<i>Jun 2024 - Aug 2024</i>
A coffee shop website built using WordPress with a drag-and-drop builder, featuring an interactive menu display and a stall booking system for easy reservations.	
Cebu Institute of Technology – University	Cebu City, Philippines
<i>CrowdFunding System</i>	<i>May 2024 - Jun 2024</i>
Developed a web-based crowdfunding platform that enables continuous, transaction-based support for individuals and projects. Features include campaign creation, real-time donation tracking, and secure user authentication. Designed to provide a transparent and sustainable funding solution for various causes.	
<i>Automated Smart Bin</i>	<i>Jun 2024 - Dec 2024</i>
Developed an IoT-enabled smart bin that monitors waste levels using ultrasonic sensors and provides real-time data for efficient waste collection. Integrated microcontroller-based hardware with a monitoring system to improve waste management and reduce overflow issues.	
<i>Borrowing System</i>	<i>Jun 2023 - Dec 2023</i>
It is a web application system where students and teachers can easily borrow equipment in the laboratory without any hassle writing down member's names, equipment names, quantities and more.	
<i>Pet Store Management</i>	<i>May 2022 - Jun 2022</i>
This is a POS system where users can be able to do inventory, able to see the total sales, and print the receipt of the customer.	

SKILLS & INTERESTS

Skills: Programming Languages: C, C#, JavaScript
Web Development: React.js, Next.js, HTML, CSS
Backend & Database: Node.js, Firebase, MongoDB
Embedded Systems & IoT: Arduino programming & hardware interfacing
Tools & Technologies: Git/GitHub, Visual Studio Code, Arduino IDE
Core Competencies: Problemsolving, debugging, hardware– software integration
Interests: Passionate about web development, emerging technologies, coding challenges, and IoT development.
